THE TOMB

Died-Near Lexington, Lafayette county, Mo, day 17th, FRANKIE C., infant son of Thomas and Emma Callaway, aged 2 months and 20 days. Mrs. Mattie Walton, daughter of Dr. G. P. erndon. The deceased had long been a sufferer from the dread disease, consumption. Jesus, the true friend that he is, came to her in the our of affliction. Her sickness was, by the lessing of God, the means of leading her to hrist. Her sufferings were great, especially uring the last few days of her illness. But foot, who comforts and supports his people in il their trials, enabled her to endure them with attent and cheerful resignation. Faith admitted ew lights into her some and gave her ever to ejorce in sufferings, sustained by the assurance but they would work out for her an invariance. that they would work out for her an immeasurathe and sternal weight of glory. The greatness
of her sufferings entirely weamed her from
earth, so that she was anxious to depart and
he with Christ. She earnestly longed to be
tree from sorrow, and enter upon those loys
which tool has prepared for his people, and of
which the Holy Spirit gave her a sweet foretaste
as an earnest that they were awaitine her. Her

which God has prepared for his people, and of which the Holy Spirit gave her a swert foretaste as an earnest that they were awaiting her. Her last words were. "Jesus has come to take me home." She was quite young, only 27 years of age. Like the flower of the held, she withered and died before the evening of life had come. Thus it is that another loved one is gone, and many hearts there are that mourn her absence. But let them be comforted by the thoughtthat she is now in possession of a perfect and everlasting imppiness, and that they too may soon be with her again forever and share the same exalted febrity. Mrs. Jane T. Walton died at her residence, near the Sweet Springs, in Saline county, on the vening of May 28th, 1878, and that which would save been the cause of profound sorrow to her

nigh past endurance to her immediate relations peen bought from \$2 50 to \$5 00 per acre. by its suddenness. THE LABORATORY OF THE SYSTEM.

The stomach is the laboratory of the system, i which certain mysterious processes are con stantly going on. These result in the producon of that wonderful vivifying agent the blood which in a state of health rushes laden with the dements of vitality to the remotest parts of the ystem. But when the stomach is semi-paralyzed by dyspepsia, blood manufacture is carried on imperfectly, the circulation grows thir and sluggish, and the system suffers in const ence. Moreover, indigestion reacts upon the liver and bowels, rendering the first sluggish and the latter constipated. The brain also suffer y sympathy, and sick headaches, sleeplessness nd nervous symptoms are engendered .: Hoste ter's Stomach Bitters reforms this state of things, gives permanent tone and regularity omuch and its associate organs, the bowels and liver, and ensures complete nourish ient and increased vigor of the system. It is the most popular as well as the most efficient sti-dyspeptic and tonte in America | junimi Clifford's Febrifuge - Unfailing, infallib
